

## PROJECT PLANNING

### MILESTONE AND ACTIVITY LIST

DATE	29 OCTOBER 2022
TEAM ID	PNT2022TMID07578
PROJECT NAME	Traffic and capacity analysis for major ports

- **PLANNING-** All the modules and features are planned which are going to be implemented.
- **REQUIREMENTS-** The required software tools are installed. With the help of these tools the project is going to be developed.
- **DESIGN-** The modules like login page, dashboard, registration etc are going to be designed.
- **DEVELOPMENT-** The predictor is going to be developed which analyses the previous dataset. To develop this predictor specific algorithm is used.
- **TESTING-** After the developing stage is done, the model is tested to check whether there is any error or bug. If any error or bug occurs, it is eliminated.
- **DEPLOYMENT-** Finally, the project is submitted in github.
